Semi-Annual Trade List. Spring, 1897

NOTICE TO PURCHASERS.

We invite the attention of Nurserymen, Florists and Dealers to our Wholesale Trade List for the Spring of 1897. **These prices are for the Trade only**, and supersede all previous quotations.

All Deciduous Trees are young and thrifty, grown with great care under a clean, thorough system of cultivation, carefully pruned and trained. They are handsome, straight and symmetrical.

The Evergreens offered herein have been frequently root-pruned, and are finely rooted. They have been carefully grown into fine, nicely-furnished, well-developed specimens of their various ages and sizes.

Our Flowering Shrubs and Vines now include one of the largest and best-assorted collections. They are of two grades—those of lighter grade or smaller size, intended for the Trade to transplant, and those which have been transplanted and have made fine, bushy plants. These are suitable to be used at once in filling retail orders. There is a difficulty in giving purchasers an idea of the class of shrubs offered, where height alone is named, but any further description will be willingly given.

TERMS.—Cash with order, or satisfactory reference from those with whom we have not had previous business dealings.

REMITTANCES.—Remittances can be made by draft, registered letter or post-office money order on Morrisville, Pa., or we will forward by express, with bill to be paid, with cost of collection, on delivery.

LOCATION.—The Glenwood Nurseries are situated near Morrisville, Bucks County, Pa., one mile from Trenton, N. J., thirty miles from Philadelphia, and sixty miles from New York. Trains leave Broad Street Station, Philadelphia, and Cortlandt and Desbrosses Street Ferries, New York, almost hourly for Trenton, N. J., and several times daily for Morrisville, Pa. There are trains quite frequently from Reading Terminal Station, Philadelphia, and Liberty Street Ferry, New York, to Trenton, N. J.

An invitation to visit our Nurseries is cordially extended to the Trade generally.

SHIPPING FACILITIES.—The Pennsylvania, Baltimore and Ohio and Reading Railroads offer equal conveniences for shipping from Trenton, N. J., from which point all our shipments are made. We can forward West, via Pennsylvania Railroad, with through freight rates, without change of cars; North, via Lehigh Valley Railroad and Erie Dispatch; and South and East, by rail or steamship lines from Philadelphia or New York. We can obtain very liberal freight rates, as there is considerable competition from this point.

Purchasers are requested to name the mode of conveyance by which they desire their shipments made, otherwise we will forward to the best of our judgment. After delivering to the forwarders, all articles are entirely at the risk of the purchaser; should any loss or delay occur, the forwarder alone must be held accountable and responsible.

CLAIMS.—All claims for errors must be made upon receipt of stock. We desire to be informed at once of any errors that may occur, in order to rectify the same without delay.

THE WM. H. MOON CO.,
Morrisville, Bucks County, Pa.

Fruit Department.

NOTE.—In filling orders at the prices annexed, we will consult the wishes of customers as far as practicable in the selection of varieties.

" 3 to 4 ft.....	12 00	100 00		

The hedge plants, both deciduous and evergreen, grown and sent out from the Glenwood Nurseries, are of the very finest grade, care being taken to have them bushy, compact and well furnished to the ground, so that perfectly-formed hedges can be obtained at once. We have an immense stock of all the varieties quoted, but are especially well supplied with California Privet two years old, and in order to satisfy our customers as to the grade and quality of plants their orders will be filled with, will send samples in advance when requested.

Evergreen Trees.

Our collection of Choice Evergreens of small and medium size is very large. Great care is taken to shear, move and root-prune them, in order that they may be transplanted successfully. They have been frequently trimmed and transplanted, and are of a fine, symmetrical shape.
